

Contact Lens New Wearer's Program: Follow-up Evaluation

Congratulations on your first experience with contact lenses and welcome back for your follow-up evaluation! On your visit today, your toronto**eyecare** eye doctor will medically evaluate your eyes and contact lenses to ensure the following:

- ✓ **Optimal ocular comfort and contact lens fit**
- ✓ **Consistent and clear vision when wearing contact lenses**
- ✓ **Accurate and precise implementation and execution of all contact lens handling, cleaning and storage techniques**

Once your contact lens follow-up evaluation is complete, your toronto**eyecare** eye doctor will discuss the results with you and let you know if any modifications are necessary. Each patient will receive a customized recommendation regarding contact lenses, care products, wearing times, replacement and/or follow up schedules. If you have any questions, please feel free to ask at any time.

Remember, long-term successful contact lens wear is a combination of:

1. regular professional eye care visits
2. high quality contact lens products
3. patient compliance with the recommended contact lens wearing and care regimen
